

WE ARE DEMOLITION PLUS

We believe that a strong future
begins by clearing the past.

As a family owned, Canadian operated company specializing in structural and selective demolition, hazardous substance abatement and soil remediation, we distinguish ourselves through our **core strengths**:

+ Our People

For 35+ years, we have built a highly skilled workforce with unparalleled expertise. Our team is passionate about our workmanship and dedicated to our clients—from our executive team, managers and support staff to our supervisors and unionized equipment operators and labourers.

+ Our Network

Demolition Plus has well established relationships with sub-trades, engineering consultants and construction management firms. This enables us to collaborate closely with other professional teams at every phase of the project to keep it progressing on schedule and on budget.

+ Compliance and Preparedness

We manage projects of any size, scope and complexity—and we come prepared with all certifications up to date. We employ our own mechanics, stocking spare parts and maintaining our equipment in peak operating condition to prevent interruptions and delays.

+ Safety Culture and Training

The value we place on encouraging and promoting a Safety Culture, combined with our company-wide focus on health and safety, are reflected in the vigilance and accountability of our people. From standard, mandatory training and strict COVID protocols to refresher courses, we ensure our workers are job-ready.

+ Our Fleet

Our fleet of cutting-edge equipment is engineered to be demolition specific: standard, large, high-reach, mini and robotic excavators; skid steers; telehandlers; tri-axle and dump trailers; and various attachments such as hydraulic shears, hammers and rotating grapples.

+ Environmental Sustainability

Dedicated to sustainable practices, accountability, compliance, and audits, we are sought after for LEED certified, abatement, remediation, selective demolition, and heritage projects. Our commitments to health and safety, efficiency and quality go hand in hand with this kind of careful workmanship.

WE ARE DEMOLITION PLUS

Turnkey Demolition and Abatement Services Industrial + Commercial + Institutional

Do you own or manage a property requiring structural or selective demolition, hazardous substance abatement and soil remediation services?

Choose **Demolition Plus for all your *Division 02* requirements!**
